

TIPS FOR FUNDRAISING SUCCESS

Get Creative

Think of a fundraising idea that you will enjoy. This will help make your fundraising efforts that bit easier.

01

Tell Your Story

When creating your fundraising page or asking friends and family for donations, make sure you tell your story as to why you're fundraising for GIVIT. Sharing your story will allow you to connect to those you're asking for support.

02

Donate To Yourself

To kickstart your fundraising page, donate to yourself! This will show your donors just how passionate you are about fundraising for GIVIT.

03

Team Up With Your Workplace

Your company may love to get involved with your fundraiser. Ask them if they'll sponsor you or match donations made.

04

Share On Your Social Media

Let's get sharing! Promote your fundraiser on your social media pages and get your friends to help you fundraise for GIVIT. You can use the GIVIT social tiles in [Tools & Tips](#).

05

Say Thanks To Your Donors!

The most important step to your fundraiser is to thank your donors. You can use our [thank you certificates](#) or send your own personalised message to say a big thank you to your wonderful donors.
